ROAM™ OA

# DONJOY®

Life's next chapter begins with

## ROAM™ OA

### **THE NEWEST INNOVATION IN UNLOADER BRACES FROM DONJOY®, PART OF ENOVIS™**

Help patients say goodbye to knee pain and hello to ROAM OA™. From picking up their grandkids to teeing off at the driving range, **lightweight, low-profile joint unloading and support** never felt so good—or was so easy to prescribe. ROAM helps **improve mobility** and **provides relief** by unloading the pressure of unicompartmental osteoarthritis or other knee pain.

### **INTENDED USE/INDICATIONS**

For patients with symptoms, physical findings or radiographic evidence of moderate to severe unicompartmental knee osteoarthritis, post-operative meniscal tears only where unicompartmental unloading is indicated, or varus-valgus knee conditions that may benefit from unicompartmental unloading.

### **COMFORTABLE, EASY TO USE AND EFFECTIVE**

Ideal for a wide variety of patients who want to **increase activity** and who **enjoy an active lifestyle**. For conservative care or in preparation for surgery, ROAM is easy to use and offers a high level of comfort. Consistent use of an unloader knee brace has been shown to contribute to general daily functioning, reduced pain, and improved mobility, which can lead to **increased activity and greater quality of life**.

### **CUSTOM-FABRICATED OPTION FOR UNIQUE FIT NEEDS**

A custom option addresses your most challenging fitting needs. Custom-measured with condyle and uprights custom-positioned and optimal height setting for the patient's "best fit," ROAM™ provides **low-profile, maximum comfort** and **mitigates migration** by capturing the calf muscle more effectively. Cuff sizes and strap lengths are tailored to the patient. Extension and flexion stops are pre-built into the brace to fulfill the patient's specific needs.

### **COMFORTABLE, EFFECTIVE AND SLEEK**

- **Ultra-low profile, lightweight, fits under clothing**—all-black styling is modern, discreet and breathable
- **Unloads weight** from knee to **dynamically relieve pain**
- **Dynamic strapping and unique condyle harness** completely **avoids sensitive skin in the popliteal space**, while **providing comforting proprioception** on the opposite side of the knee
- **Flexible cuffs** comfortably cradle and **support thigh and calf**
- Designed for a **wide range of body types** and patient needs
- Soft silicone-enhanced lining **feels great on skin; prevents slippage**—2x Cool Technology fibers leave a lasting, cool feeling on the leg
- **Bendable uprights** on the OTS version allow you to better **match patient anatomy**

### **EVERY BRACE ALLOWS TWO FITMENT OPTIONS**

Uniquely designed bracing that can be fitted for either **left lateral and right medial**, or vice versa fitting **right lateral and left medial**. Resulting in a drastically reduced SKU count. **Less is truly more.**

**PATIENT-FOCUSED; PRESCRIBE FOR USE AND SATISFACTION**

- **“Set and forget” straps** set by a trained fitter
- Two easy connection points; an audible “snap” of the **secure magnetic buckles** gives patients (including those with eyesight or dexterity challenges) **confidence and assurance**
- Patients can **dial in support and pain relief on demand**; BOA® Fit System makes it easy and clear with a visual indicator

DYNAMIC  
UNLOADING

### QUALITY & DURABILITY

- **Hand washable** after everyday outings and active adventures
- Backed by **DonJoy®** legacy of **quality, innovation, and clinically proven pain relief**
- Compliance—ROAM is **easy to wear**; put it on, take it off and adjust it in seconds
- Designed for efficiency, ease and a smaller environmental footprint; adjustability means just **a few core sizes** can be fit and customized to **most body shapes and sizes**
- **Only 6 off-the-shelf SKUs** are needed to cover the same range that traditionally requires over 50 SKUs

## FEATURES AND BENEFITS

**EASY MAG-ALIGN CLIPS:** These patented magnetic clips help align the strap connections without any fuss. Just hold the attachment using the directional arrow to slide in place and “click” you’re set.

**SET AND FORGET TECHNOLOGY:** You can don and remove your brace without changing any of your doctor’s settings.

**BOA®\* DIAL FOR JUST THE RIGHT FIT:** Dial up or dial down to set exactly how snug the brace fits.

**SLIM PROFILE HINGE:** The slim hinge design allows the brace to be worn under relaxed clothing for a discreet fit.

**ANTI-MIGRATION TECHNOLOGY:** Soft silicone helps keep the brace in place for steady comfort throughout the day.

**PATENT-PENDING COMFORT STRAPS:** The positioning of the support straps is engineered to help the back of your knee remain free from strap rub.

## ORDERING INFORMATION

PART NUMBER		THIGH CIRC.	KNEE CENTER	CALF CIRC.	SIZE
RIGHT MEDIAL/ LEFT LATERAL	LEFT MEDIAL/ RIGHT LATERAL				
11-1726-1-06000	11-1725-1-06000	33 - 47 cm	30.5 - 35.5 cm	25.5 - 35.5 cm	XS/S
11-1726-3-06000	11-1725-3-06000	47 - 59.5 cm	35.5 - 43.2 cm	35.5 - 45.5 cm	M/L
11-1726-5-06000	11-1725-5-06000	59.5 - 81 cm	43.2 - 58.4 cm	45.5 - 61 cm	XL/XXL/XXXL
